About Granular Frame Drums

This unique expansion pack offers 350 presets for Steinberg's Padshop and Padshop Pro VST granular synthesizers. With 130 manipulated frame drum samples using various effects, this all-in-one sound set provides a perfect solution for sound designers and composers.

Designed by international composer and producer, Gary Gibbons, at the World Worm Studios recording facility in Hong Kong, this sound set demonstrates unique tones and textures using only frame drum samples and the Padshop audio engine.

By using pitch correcting software that were processed with the audio industry's leading plugins, this expansion pack delivers melodic patches fitting many styles of music and provides a foundation of FX & musical FX for sound design projects. It also provides user flexibility with modwheel and aftertouch functions for music creation. With percussion, pads and various tempo-synced patches, producers and composers can produce original compositions just by using our Granular Frame Drums expansion pack.

Features

- 350 new presets produced by international composer and producer, Gary Gibbons, at the World Worm Studios recording facility in Hong Kong
- With 130 manipulated frame drum samples, this expansion pack delivers single, double and stereo drum sounds, ethnic percussive patches, electro drum kits, tempo-synced combination pads, moving pads, musical FX, drones, various tempo-synced loops, flute, organ, piano and bass patches as an all-in-one VST sound instrument set. Perfect for sound design and music creation!
- Available as download only
