About Granular Synth Collection

This expansion pack offers 100 presets for Steinberg's Padshop and Padshop Pro VST granular synthesizers. With 77 manipulated stereo samples made by My Theremin and Atari Punk Console, "Sound Toy DIY Kit" from PCNA electronics™ (<http://www.pcna.it/>), this all-in-one sound set provides a palette of sounds that will inspire your deepest electronic perversions to create and experiment your creativity in music and sound design.

Designed by Italian composer, sound designer and producer Marco Giardina, this sound set demonstrates the power of the Padshop audio engine.

Features

- 100 new presets by Italian composer, sound designer and producer Marco Giardina
- With 77 manipulated stereo samples, this expansion pack delivers creativity in music and sound design!
- Available as download only
- For Mac and Windows users

Compatibility
