About Joystick

Be on your A game with Joystick for Padshop 2

Experience the power of a huge collection of sounds fueled with movement, diverse comps, modern basses plus arpeggiated cinematic drums and glitched kits. With Joystick, you'll have everything you need to create unforgettable music and soundscapes, including vocals, synthesized game sound effects, evolving drones, sequenced cinematic impacts, blasts, risers and more. Transport gamers and movie fans to another world by making every composition a winner.

Features

- 650 new creative presets for Padshop 2
- 271 manipulated stereo samples
- Creative toolkit for any game, film or electronic music projects
- All presets designed by Gary Gibbons from Online Music Foundry
- Exclusive expansion for Padshop 2

Compatibility

Joystick VST Sound Instrument Set is an expansion pack for Steinberg's Padshop 2, a Granular and Spectral Synthesizer.

* For Non-Padshop 2 users – This product is not compatible with Padshop or Padshop Pro.
