About Legends

Organic ambient sounds fused with cinematic textures

Step into the story of *Legends*, where synthesis meets imagination. This X-Stream expansion, crafted by Gary Gibbons of Online Music Foundry, unveils 110 presets designed to transport you into sonic grandeur. Featuring solo strings, ethnic woodwinds, deep textured atmospheres, evolving stacked pads, and pulse-driven synth basses, Legends is the perfect tool for film scoring, ambient sound design, and electronic music productions.

Features

- 110 new creative presets for X-Stream
- 108 manipulated stereo samples
- Toolkit for ambient producers, sound designers, film and trailer composers
- All presets designed by Gary Gibbons from Online Music Foundry
- Exclusive expansion for X-Stream
